

Glatton Parish Council
Planning Meeting 11th August 2010 to consider application
1001114FUL : replacement of wooden garage with a new one,
Arley, High Haden Road

Present: Gill Denton

Brian Hackman

Lynette Prain

Paul Williams sent his apologies

There were 2 Glatton residents in attendance.

The Chairman outlined the reason for the meeting. The existing garage is dilapidated and in need of replacement. The original plan for the garage external walls detailed pebbledash surfaces but now there has been a modification in that the external wall on the eastern side will now have wooden cladding and not pebbledash. In view of this it appears that there are now no objections from Glatton residents about the proposals.

Members had all seen the plans and the Chairman asked each member in attendance for their views.

Gill Denton: No objection, recommend approval

Lynette Prain: No objection, recommend approval

Brian Hackman: No objection, recommend approval

The Clerk was requested to inform the District Council that the Parish Council recommends approval of the application, as amended by the addition of timber cladding to the eastern wall.

There being no further business the Chairman closed the meeting at 7.30pm
